

Section 1 - Identification of The Material and Supplier

Walker Ceramics 5 McLellan St, Bayswater, Victoria 3153, Australia
Telephone (03) 8761 6322 Fax (03) 8761 6344
Email sales@walkerceramics.com.au Website www.walkerceramics.com.au

Product Name: AD1012 Chilli Red Coloured Slip
Other means of identification: Liquid Opaque Underglaze
Chemical nature: Blends of clays, silica and fluxes
Product Use: Decoration of pottery & ceramics
Restrictions on use: None
Emergency Number: Poisons Control – 13 11 16 (24 hours, 7 days a week)
Creation Date: March 2019
This version issued: March 2024 and is valid for 5 years from this date.

Section 2 - Hazards Identification

Statement of Hazardous Nature

This product is classified as: Not classified as hazardous according to the criteria of SWA.
Not a Dangerous Good according to the Australian Dangerous Goods (ADG) Code.

Classification: Acute Toxicity - Oral category 4, Eye damage/irritation category 2B, Acute Toxicity - Inhalation category 4

Signal Word: Warning

Hazard Statements:

H302 – Harmful if swallowed
H320 – Causes eye irritation
H332 – Harmful if inhaled

Precautionary Statements - Prevention:

P264 – Wash thoroughly after handling
P264 – Wash thoroughly after handling
P261 – Avoid breathing dust/fume/gas/mist/vapours/spray.
P271 – Use only outdoors or in a well-ventilated area

Precautionary Statements – Response:

P301 + P312 – If swallowed call doctor or poison centre if feeling unwell
P305 + P351 + P338 – IF IN EYES: Rinse with water cautiously for several minutes. Remove contact lenses, if present and easy to do so.
P337 + P313 – If eye irritation persists: Get medical advice/attention.
P304 + P340 – If inhaled: Remove person to fresh air and keep comfortable for breathing
P312 – Call a poison centre/doctor if feeling unwell

Precautionary Statements - Storage:

Not applicable

Precautionary Statements - Disposal:

P501 – Dispose of contents in accordance with local regulations.

SAFETY DATA SHEET

Emergency Overview

Physical Description & Colour: Red opaque viscose liquid

Odour: None

Major Health Hazards: Can cause eye irritation, irritation if inhaled or swallowed. May cause organs through prolonged or repeated exposure.

Section 3 - Composition/Information on Ingredients

Ingredient	CAS No	Conc %	TWA (mg/m ³)	STEL (mg/m ³)
Clay as Kaolin	1332-58-7	<50	2.0mg/m ³	
Silica	14808-6-7	15-30	0.1mh/m ³	
Zircon	14940-68-2	<5	5.0mg/m ³	
Red Inclusion Pigment	102184-95-2	<5	0.05mg/m ³	
Other non hazardous ingredients		Up to 100		

This is a commercial product whose exact ratio of components may vary slightly. Minor quantities of other non-hazardous ingredients are also possible.

The SWA TWA exposure value is the average airborne concentration of a particular substance when calculated over a normal 8 hour working day for a 5-day working week. The STEL (Short Term Exposure Limit) is an exposure value that may be equalled (but should not be exceeded) for no longer than 15 minutes and should not be repeated more than 4 times per day. There should be at least 60 minutes between successive exposures at the STEL. The term "peak "is used when the TWA limit, because of the rapid action of the substance, should never be exceeded, even briefly.

Section 4 - First Aid Measures

General Information:

You should call The Poisons Information Centre if you feel that you may have been poisoned, burned or irritated by this product. The number is 13 1126 from anywhere in Australia (0800 764 766 in New Zealand) and is available at all times. Have this SDS with you when you call.

Inhalation: Rinse mouth and then drink plenty of water in small sips.

Skin Contact Wash thoroughly with soap and water.

Eye Contact: Wash affected eyes for at least 15 minutes under running water with eyelids held open. Seek medical attention if irritation persists.

Ingestion: Rinse mouth and then drink plenty of water in small sips.

Section 5 - Fire Fighting Measures

Fire and Explosion Hazards: The major hazard in fires is usually inhalation of heated and toxic or oxygen deficient (or both), fire gases. There is no risk of an explosion from this product under normal circumstances if it is involved in a fire.

No fire decomposition products are expected from this product at temperatures normally achieved in a fire.

Extinguishing Media: Not combustible. Use extinguishing media suited to burning materials.

Fire Fighting: If a significant quantity of this product is involved in a fire, call the fire brigade. Fire-fighters should wear full protective clothing including self-contained breathing apparatus. Use water, foam or dry extinguishing media. Use equipment/media appropriate to surrounding fire conditions. Dispose of fire debris and contaminated extinguishing water in accordance with local regulations.

Flash point: Does not burn.

Upper Flammability Limit: Does not burn.

Lower Flammability Limit: Does not burn.

Autoignition temperature: Not applicable - does not burn.

Flammability Class: Does not burn.

Section 6 - Accidental Release Measures

Personal Precautions:

SAFETY DATA SHEET

Issued by: Walker Ceramics

Phone: 03 87616322 (office hours)

Poisons Information Centre: 13 1126 from anywhere in Australia, (0800 764 766 in New Zealand)

As a minimum, wear overalls, goggles, and gloves. Suitable materials for protective clothing include rubber, PVC. Eye/face protective equipment should comprise as a minimum, protective glasses and, preferably, goggles. If there is a significant chance that dusts are likely to build up in cleanup area, we recommend that you use a suitable Dust Mask. Thoroughly launder protective clothing prior to storing and reusing.

Please refer to protective measures listed in sections 7 & 8.

Environmental Precautions: Avoid letting product entering drains or water courses. Please refer to section 12.

Methods and materials for containment and clean up:

Minor Spills - Don't normally need any special cleanup measures.

Major Spills - In the event of a major spill, prevent spillage from entering drains or water courses. As a minimum, wear overalls, goggles, and gloves. Suitable materials for protective clothing include rubber, PVC. Eye/face protective equipment should comprise as a minimum, protective glasses and, preferably, goggles. If there is a significant chance that dusts are likely to build up in cleanup area, we recommend that you use a suitable Dust Mask.

Stop leak if safe to do so and contain spill. Sweep up and shovel or collect recoverable product into labelled containers for recycling or salvage and dispose of promptly. Consider vacuuming if appropriate. Recycle containers wherever possible after careful cleaning. After spills, wash area preventing runoff from entering drains. If a significant quantity of material enters drains, advise emergency services. This material may be suitable for approved landfill. Ensure legality of disposal by consulting regulations prior to disposal. Thoroughly launder protective clothing before storage or re-use. Advise laundry of nature of contamination when sending contaminated clothing to laundry.

Section 7 - Handling and Storage

Handling: Keep exposure to this product to a minimum, and minimise the quantities kept in work areas. Check Section 8 of this SDS for details of personal protective measures, and make sure that those measures are followed. The measures detailed below under "Storage" should be followed during handling in order to minimise risks to persons using the product in the workplace. Also, avoid contact or contamination of product with incompatible materials listed in Section 10.

Storage: Make sure that the product does not come into contact with substances listed under "Incompatibilities" in Section 10. Check packaging - there may be further storage instructions on the label.

Storage Incompatibility: None known.

Section 8 - Exposure Controls and Personal Protection

The following Australian Standards will provide general advice regarding safety clothing and equipment:

Respiratory equipment: **AS/NZS 1715**, Protective Gloves: **AS 2161**, Occupational Protective Clothing: AS/NZS 4501 set 2008, Industrial Eye Protection: **AS1336** and **AS/NZS 1337**, Occupational Protective Footwear: **AS/NZS2210**.

SWA Exposure Limits	TWA (mg/m ³)	STEL (mg/m ³)
Silica		

No special equipment is usually needed when occasionally handling small quantities. The following instructions are for bulk handling or where regular exposure in an occupational setting occurs without proper containment systems.

Ventilation: This product should only be used in a well-ventilated area. If natural ventilation is inadequate, use of a fan is suggested.

Eye Protection: Eye protection such as protective glasses or goggles is recommended when this product is being used.

Skin Protection: The information at hand indicates that this product is not harmful and that normally no special skin protection is necessary. However, we suggest that you routinely avoid contact with all chemical products and that you wear suitable gloves (preferably elbow-length) when skin contact is likely. Wear safety footwear or safety gumboots.

Body/clothing Protection: PVC Apron or overalls.

Protective Material Types: We suggest that protective clothing be made from the following materials: rubber, PVC.

Respirator: If there is a significant chance that dusts are likely to build up in the area where this product is being used, we recommend that you use a suitable Dust Mask.

Safety deluge showers should, if practical, be provided near to where this product is being handled commercially.

Engineering measures: Well ventilated area with eyewash

SAFETY DATA SHEET

Section 9 - Physical and Chemical Properties:

Physical Description:	Red opaque liquid
Colour:	Red
Odour:	No odour.
Boiling Point:	>400°C
Freezing/Melting Point:	No specific data. Solid at normal temperatures.
Volatiles:	Various - depending on water content.
Vapour Pressure:	>1mm of Hg
Vapour Density:	Not applicable
Specific Gravity:	1.7-1.75
Water Solubility:	Insoluble.
pH:	No data.
Volatility:	No data.
Odour Threshold:	No data.
Evaporation Rate:	Not applicable.
Coeff Oil/water Distribution:	No data
Viscosity:	Not applicable.
Autoignition temp:	Not applicable - does not burn.
Flammability:	Not applicable - does not burn.
Upper/lower flammability:	Not applicable - does not burn.
Saturated vapour concentration:	Not applicable.
Release of invisible flammable vapours:	Not applicable.
Particle Size:	Not applicable.
Dustiness:	Not applicable.

Section 10 - Stability and Reactivity

Reactivity: This product is unlikely to react or decompose under normal storage conditions. However, if you have any doubts, contact the supplier for advice on shelf-life properties.

Chemical Stability: This product is considered stable and hazardous polymerisation will not occur.

Possibility of Hazardous Reactions:

Conditions to Avoid: None known.

Incompatibilities: No particular Incompatibilities.

Hazardous Decomposition Products: No significant quantities of decomposition products are expected at temperatures normally achieved in a fire.

Section 11 - Toxicological Information

Potential Health Effects

Inhalation:

Short Term Exposure: Available data indicates that this product is not harmful. However product may be mildly irritating, although unlikely to cause anything more than mild transient discomfort.

Long Term Exposure: No data for health effects associated with long term inhalation.

Skin Contact:

Short Term Exposure: Available data indicates that this product is not harmful. It should present no hazards in normal use. However product may be mildly irritating, but is unlikely to cause anything more than mild discomfort which should disappear once contact ceases.

Long Term Exposure: No data for health effects associated with long term skin exposure.

Eye Contact:

Short Term Exposure: This product may be irritating to eyes, but is unlikely to cause anything more than mild transient discomfort.

Long Term Exposure: No data for health effects associated with long term eye exposure.

Ingestion:

SAFETY DATA SHEET

Short Term Exposure: Significant oral exposure is considered to be unlikely. However, this product may be irritating to mucous membranes but is unlikely to cause anything more than transient discomfort.

Long Term Exposure: No data for health effects associated with long term ingestion.

Carcinogen Status:

SWA: No significant ingredient is classified as carcinogenic by SWA.

NTP: Silica is classified by NTP as reasonably anticipated to be carcinogenic to humans.

See the NTP website for further details. A web address has not been provided as addresses frequently change.

IARC: Silica is classed 1 by IARC - carcinogenic to humans.

See the IARC website for further details. A web address has not been provided as addresses frequently change.

Note that these designations refer only to respirable silica.

Section 12 - Ecological Information

Ecotoxicity: No data available for all ingredients

Persistence and degradability: No data available for all ingredients

Bioaccumulative potential: No data available for all ingredients

Mobility in soil: No data available for all ingredients

Other adverse effects: None

This product is not biodegradable. However, it is biologically inert so will not be harmful to flora or fauna, soil or water and will not cause long term problems. Expected to not be an environmental hazard.

Section 13 - Disposal Considerations

Disposal: This product may be recycled if unused, or if it has not been contaminated so as to make it unsuitable for its intended use. If it has been contaminated, it may be possible to separate the contamination in some way. Only if neither of these options is suitable, consider landfill. Also check local regulations on disposal.

Section 14 - Transport Information

ADG Code: Not classified as a dangerous good under transport regulations.

UN number: Not applicable

UN proper shipping name: Not applicable

Transport hazard class(es): Not applicable

Packing group: Not applicable.

Environmental hazards: Not applicable

Special precautions for user: Keep tightly closed in a dry, cool and well-ventilated place. Not subject to hazardous substances labelling.

Section 15 - Regulatory Information

Silica is found on the below regulatory lists:

Australia Hazardous Chemical Information systems (HCIS) Hazardous Chemicals

Australia Model Work Health and Safety Regulations – Hazardous Chemicals (other than lead) requiring health monitoring.

Australian Inventory of Industrial Chemicals (AIIC)

Section 16 - Other Information

This SDS contains only safety-related information. For other data see product literature.

Initial date: March 2019

Revision date: March 2024

Revision Notes: Sections 1-16

SAFETY DATA SHEET

Issued by: Walker Ceramics

Phone: 03 87616322 (office hours)

Poisons Information Centre: 13 1126 from anywhere in Australia, (0800 764 766 in New Zealand)

ADG Code	Australian Code for the Transport of Dangerous Goods by Road and Rail (7 th edition)
AICS	Australian Inventory of Chemical Substances
SWA	Safe Work Australia, formerly ASCC and NOHSC
CAS number	Chemical Abstracts Service Registry Number
Hazchem Code	Emergency action code of numbers and letters that provide information to emergency services especially firefighters
IARC	International Agency for Research on Cancer
NOS	Not otherwise specified
NTP	National Toxicology Program (USA)
R-Phrase	Risk Phrase
SUSMP	Standard for the Uniform Scheduling of Medicines & Poisons
UN Number	United Nations Number

THIS SDS SUMMARISES OUR BEST KNOWLEDGE OF THE HEALTH AND SAFETY HAZARD INFORMATION OF THE PRODUCT AND HOW TO SAFELY HANDLE AND USE THE PRODUCT IN THE WORKPLACE. EACH USER MUST REVIEW THIS SDS IN THE CONTEXT OF HOW THE PRODUCT WILL BE HANDLED AND USED IN THE WORKPLACE.

IF CLARIFICATION OR FURTHER INFORMATION IS NEEDED TO ENSURE THAT AN APPROPRIATE RISK ASSESSMENT CAN BE MADE, THE USER SHOULD CONTACT THIS COMPANY SO WE CAN ATTEMPT TO OBTAIN ADDITIONAL INFORMATION FROM OUR SUPPLIERS

OUR RESPONSIBILITY FOR PRODUCTS SOLD IS SUBJECT TO OUR STANDARD TERMS AND CONDITIONS, A COPY OF WHICH IS SENT TO OUR CUSTOMERS AND IS ALSO AVAILABLE ON REQUEST.

Please read all labels carefully before using product.

This SDS is prepared in accord with the Code of practice of the preparation of Safety Data Sheets for Hazardous Chemicals
